

IIMS 2012

IIAI/ACIS INTERNATIONAL SYMPOSIUM

ON INDUSTRIAL INFORMATION MANAGEMENT AND SYSTEMS

MAY 30-31, 2012, PINE CITY HOTEL, SHANGHAI, CHINA

CALL FOR PAPERS

Conference Website

<http://www.iaiai.org/event/iims2012/>

Symposium Co-Chairs

Roger Lee (Central Michigan Univ., USA)

Tokuro Matsuo (Yamagata Univ. / Nagoya

Institute of Technology, Japan)

Program Co-Chairs

Takanori Terashima (Miyagi Univ., Japan)

Yihai Chen (Shanghai Univ., China)

Program Committee

TBA on the website

Co-located Conferences

IIAI/ACIS IEIS 2012

IIAI/ACIS International Symposium on Innovative E-Service and Information Systems

<http://www.iaiai.org/event/ieis2012/>

IEEE/ACIS ICIS 2012

11th IEEE/ACIS International Conference on Computer and Information Science

<http://acis.cps.cmich.edu/ICIS2012/>

Accommodation

Pine City Hotel, located in the center of Shanghai, provides high-quality services. Shanghai is one of the best cultural, financial, commercial, and industrial centers both of China and of the world.

In the highly competitive, globalized world as we live, more efficient, effective industrial information management and dedicated systems are required. ICT technology is widely applied to various fields nowadays but it is still possible to offer the innovative solutions to the other industry fields and leads our rich life. IIAI/ACIS International Symposium on Industrial Information Management and Systems brings together scientists, engineers, computer users, and students to exchange and share their experiences, new ideas, and research results about all aspects of ICT technology which applicable to the industries. The conference will cover a broad set of research topics including the followings but not limited to.

Signal & Image Processing, Pattern Recognition / Bioinformatics / Web Applications / Data Base Management / Data Mining & Data fusion / Knowledge Management & Decision Making / Artificial Intelligence / Machine Learning / Human-Computer Interaction / Mobile & wearable computing / Machine Vision & Remote sensing / Design Visualization / Visual simulation for community planning / Collaborative visual & augmented environments / Ontologies for modeling & visualization / Interactive media environments / AR/VR Applications / 3D Geographic Information Systems / 3D Engines / game engines / Energy & Power Systems / Smart Energy Utilizations / Smart Grid Information & Communication Technologies

Accepted papers are published in proceedings by IEEE Computer Society together with ICIS 2012. The proceedings will be index in the EI (Compendex), ISI CONFERENCE PROCEEDINGS CITATION INDEX (Thomson Reuter Web of Knowledge), Inspec, DBLP, and several major citation indexes. Also, all of presented papers are included in IEEE Digital Library (IEEE Xplore).

Among the presented papers, selected papers are invited to be published in IJCIS (International Journal of Computer and Information Science) and IEE (Information Engineering Express). Also, for the post-conference publication, several special issues in journals including SCI/EI-indexed are planned.

Paper Submissions

Prospective authors are invited to electronically submit full papers of their work in English via online submission system of the symposium (4-6 pages in pdf format). We only accept submissions in the double-columned IEEE CS style format. (See the IEEE CS home page). All submissions must include the author's name(s), affiliation, complete mailing address, phone number, fax number and email address.

Submitted papers will be strictly peer-reviewed by at least two PC members and/or experts in the field, and evaluated on significance, originality, technical quality, and exposition. They should clearly establish a research contribution.

Important Dates

Dec. 15, 2011: Deadline of Full-length Paper Submission

Jan. 15, 2012: Notification of Acceptance

Jan. 31, 2012: Deadline of Final Camera-ready Paper Submission
Registration
